

PROXIMITY CARD READERS

ACCO-USB-CZ

Growing market demand for standalone access control system inspired SATEL's engineers to develop flexible solution that meets the requirements of numerous groups of customers.

ACCO system consist of distributed intelligent devices networked for central supervision and management. The combination of proven hardware and software solutions with though out system concept ensures the highest possible quality and makes it suitable for individual needs.

FEATURES

- support for cards, tags and other 125 kHz passive transponders
- system management reader for easy proximity cards management via **ACCO** software
- LED indicator for reader state indication
- built-in buzzer for acoustic feedback
- RJ-45 connector for connecting to **ACCO-USB**

TECHNICAL SPECIFICATION

Nominal supply voltage	12 V DC (received from ACCO-USB converter)
Max current consumption	50 mA
Częstotliwość pracy głowicy	125 kHz
Dimensions (mm)	120 x 80 x 29
Operating temperature range	-20°C...+55°C
