

WIRELESSLY TRIGGERED OUTDOOR SIREN

ASP-105

ABAX system is designed as a wireless expansion for any hardwired control panel. Unique technological solutions used by SATEL's engineers ensure the highest possible security level for a wireless system.

FEATURES

- wireless triggering of optical and acoustical signaling
- acoustic signaling: piezo transducer
- optical signaling: xenon flash strobe
- selection of four acoustic signals
- remote configuration
- long-lasting rechargeable battery powered by external power supply
- tamper protection:
 - against opening
 - against removing from mounting surface

TECHNICAL SPECIFICATION

Nominal supply voltage (±15%)	12 V DC
Type of internal battery	6 V 1,2 Ah
Average current consumption (standby mode) (±10%)	150 mA
Average current consumption (signaling mode) (±10%)	600 mA
Dimensions (mm)	148 x 254 x 64
Environmental class	III
Operating temperature range	-35°C...+55°C
