

GP-90A

เครื่องอ่านบัตรระยะไกล (90เซนติเมตร)

- Extended reading range of up to 90 cm with PVC LR (Long Range) cards
- High-precision auto tuning circuitry compensates
- Internal relay control
- Bright LED indicators, tuning LED bar
- Firmware upgradeable in the field
- Interfaces:
 - Wiegand 26 bits
 - MSR ABA Track2
 - RS232
 - RS485
- Potted for environmental protection
- Weather resistant
- Firmware download model

TECHNICAL SPECIFICATION

Power supply input voltage:	AC120/ 60Hz or 230V/50Hz
Output voltage	18~19.2V / 1.5A (Max)
Frequency	125KHz, ASK
Chip type	EM H4001 / H4002
Format	125kHz, 64bits, Manchester coding
Power switched by internal relay	Max 24V/2A
Interface cable	~90cm
Operating temperature range	-10...+60°C
Operating relative Humidity	10 ~ 90%
Housing material	ABS
Audio / Visual indication	Bright blue LED and Buzzer
Dimensions (mm)	420 x 320 x 45
