Satel®

GSM COMMUNICATION MODULE

GSM LT-1S

Efficient messaging is essential for a modern security system. SATEL provides a complete range of devices intended for reliable transmission of alarm messages through variety of available media: PSTN telephone lines, ISDN networks, GSM or TCP/IP Ethernet networks.

FEATURES

- simulation of analog telephone line over GSM network
- PAGER (DTMF) messaging conversion to SMS
- SMS reception for central monitoring station
- external modem functionality for INTEGRA panels
- RS-232 port for module programming and modem functionality

TECHNICAL SPECIFICATION

Nominal supply voltage (±15%)	12 V DC
Average current consumption (±10%)	230 mA
Outputs load	50 mA
Environmental class	II
Operating temperature range	-10°C…+55°C
