

### EXTERNAL 56K MODEM

# MDM56

Efficient messaging is essential for a modern security system. SATEL provides a complete range of devices intended for reliable transmission of alarm messages through variety of available media: PSTN telephone lines, ISDN networks, GSM or TCP/IP Ethernet networks.

### FEATURES

- optimized for communication with SATEL panels
- transmission speed up to 56 kbit/s
- powered by 12 V DC supply - typical for alarm panels
- AT command based configuration
- available in two versions
  - **MDM56 CA** – installed on panel side
  - **MDM56 PC** – used on computer side
  - **MDM56 BO** – without enclosure, to be used with alarm control panel

MDM56 CA/MDM56 PC

MDM56 BO

### TECHNICAL SPECIFICATION

Nominal supply voltage (±15%)	12 V DC
Average current consumption (±10%)	110 mA
Dimensions (mm)	125 x 114,5 x 31
Environmental class	II
Operating temperature range	-10 °C...+55 °C
