

Poland Product

# MO-600 , MO-800

Sliding Gate Operator Europe Componented

## Features

- 1.Oil immerged gear reducer.
- 2.Manual release key in case of power failure.
- 3.Self-locking in closed position.
- 4.Built-in mechanical limit switch easy to set limit position.
- 5.Wiring terminals for button switch, keypad, alarm lamp, infrared photocell and loop detector.
- 6.Auto-reverse in the event of obstruction.
- 7.Auto-close time 20-40 sec. adjustable.
- 8.Pedestrian mode available.
- 9.Remote one channel set with up to 100 metres operating range (433,92 MHz).
10. Transmissions sent from the remotes are KEELOQ®

## Technical Specification

	MO-600	MO-800
Rated output power	150W	180W
Output gear height	58.5mm	
Output revolution	45rpm	
Opening speed	10.5m/min(19T),13.5m/min(24T) 10.5m/min(19T),13.5m/min(24T)	
Output torque	14N.m	
Power supply	220V,50Hz	
Working temperature	-20C-+60C	-20C-+60C
Noise	≤55db	≤55db
Weight	12kg	12.5kg
