

Infrared sensors for automatic Photo Beam

มีเส้นเดียวสำหรับระบบประตูอัตโนมัติ สามารถนำไป
ประยุกต์ใช้กับอุปกรณ์ต่าง ๆ ได้

When it comes to keeping your automated gate safe a GateCrafters Infrared sensor is the way to go. Have peace of mind knowing your family and vehicle will be protected from the occasional mishap that can sometimes occur. One or two carefully placed sensors can keep your automatic gate opener from closing accidentally on a vehicle or more importantly on a person.

Technical features

Type	Photo Beam
Technology	Infrared
Range	< 20 m
Infra-Red Frequency	1.92 KHz
Power supply	12 to 24V DC/AC
Wave length	940 nm
Input	RX 15 mA – TX 30mA
Operating Temperature	-20C to 70C
Relay output	1A max 36V
Dimensions	49.2 x 76 x 216 mm
