

OUTDOOR SIREN WITH **OPTICAL AND ACOUSTICAL SIGNALING**

SD-3001

An effective and rigid siren is one of key components of intruder security system. SATEL's product range includes a wide selection of different sirens, to suit almost any type of installation.

All these sirens provide several common features: high quality of components used, and advanced technology - just to make them reliable.

FEATURES

- microprocessor controlled
- acoustical signaling: dynamic horn
- optical signaling: xenon flash strobe
- inner metal shield
- tamper protection against opening and removing from mounting surface
- support for sealed lead acid back up battery

available also
with other lens colour

TECHNICAL SPECIFICATION

Nominal supply voltage (±15%)	12 V DC
Average current consumption (signaling mode) (±10%)	1,4 A
Optical signaling	xenon strobe
Acoustical signaling	dynamic
Alarm melody selection	Yes
Sealed lead acid battery	Optional
Battery type	12 V 1,3 Ah
Enclosure	polycarbonate
Dimensions (mm)	300 x 195 x 97
Inner metal shield	Yes
Tamper opening switch	Yes
Tamper removal from mounting	Yes
Anti foam tamper	No
Optical anti foam tamper	No
Environmental class	III
Operating temperature range	-35°C...+55°C
