

อุปกรณ์ตรวจจ็บบ รุ่น SIG-99

(ตรวจจ็บบ โลหะ/พลังงานไฟฟ้า/อุปกรณ์ไฟฟ้า)

Key Specifications/Special Features

- ✦ Unique design
- ✦ Metal/voltage detectors & continuity tester combined in one unit
- ✦ Safe and reliable for use
- ✦ Audio (buzzer) as well as optical (LED) indicator
- ✦ Built-in self-test function
- ✦ 3-position selector switch equipped
- ✦ Hidden spring-sensor with release switch

- ✦ Pin-points any metal objects, such as pipes, reinforcing steel rods, inside wall & plasters
- ✦ Non-contact voltage detection from 70V AC & above
- ✦ Pin-points wiring locations inside wooden walls(non-grounding wirings)
- ✦ Identify polarity on battery from 1.5 to 36V DC
- ✦ Check continuity on DC circuits & components (0 to 50MΩ)
- ✦ Detects microwave leakage ($\geq 5\text{MW}/\text{CM}^2$)
- ✦ Powered by 4 x 1.5V LR44 button cells (included)
- ✦ Ideal for D.I.Y. homeowner, handyman, hobbyist and professional technician, etc.
