

OUTDOOR SIREN WITH OPTICAL AND ACOUSTICAL SIGNALING

SP-500

An effective and rigid siren is one of key components of intruder security system. SATEL's product range includes a wide selection of different sirens, to suit almost any type of installation.

All these sirens provide several common features: high quality of components used, and advanced technology - just to make them reliable.

FEATURES

- acoustical signaling: piezo transducer
- optical signaling: light bulb
- tamper protection against opening and removing from mounting surface

available also
with other lens colour

TECHNICAL SPECIFICATION

Nominal supply voltage ($\pm 15\%$)	12 V DC
Average current consumption (signaling mode) ($\pm 10\%$)	550 mA
Optical signaling	light bulb
Acoustical signaling	piezo
Alarm melody selection	Yes
Sealed lead acid battery	No
Battery type	-
Enclosure	polycarbonate
Dimensions (mm)	300 x 195 x 97
Inner metal shield	Optional
Tamper opening switch	Yes
Tamper removal from mounting	Yes
Anti foam tamper	No
Optical anti foam tamper	No
Environmental class	III
Operating temperature range	-35°C...+55°C
