

ACOUSTIC GLASSBREAK DETECTOR TESTER

Tester INDIGO

Intruder detectors are an important part of SATEL product line. Wide range of motion detectors is completed by other kind of detection devices like acoustic glassbreak detectors, selection of magnetic contacts or impressive range of gas detectors. Continuous research in the detection field lead to constant improvement and introduction of new designs based on breakthrough technologies.

FEATURES

- adjustment and testing device for **INDIGO** detectors
- simulates plate, laminated and temperature glass breaking sound
- allows precise adjustment of detector for a particular installation location
- powered by single 6LR61 alkaline battery

TECHNICAL SPECIFICATION

Battery type	9V 6LR61
Simulated glass types	plate, laminated, tempered
